Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner suggests amendment to specification of paragraph [0045] (line 3 of amended paragraph [0045] dated 06/09/2006) by changing "another embodiment" to -- one embodiment --, since this amendment does not add another new embodiment to the specification. The description of "second mask layer 281 and the mask layer of Figure 2B are patterned with the same pattern" has been originally supported by original claim 3 and figures 2B & 2E. .
